CCCU ANNUAL RESEARCH

# 2016-2017 TUITION SURVEY

#### ABOUT THE CCCU

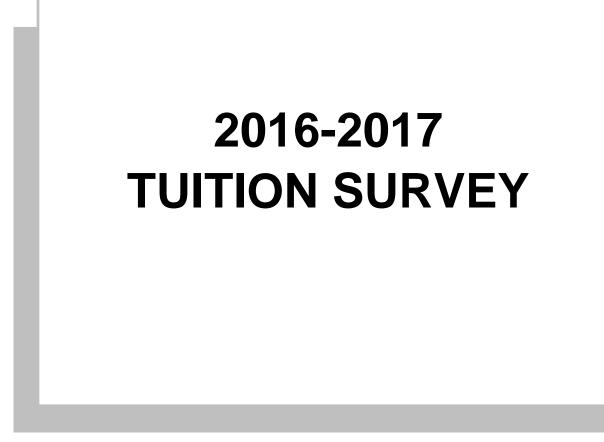

The Council for Christian Colleges & Universities is a higher education association of 176 intentionally Christ-centered institutions around the world. The 117 member campuses in North America are all fullyaccredited, comprehensive colleges and universities with curricula rooted in the arts and sciences. In addition, 54 affiliate campuses from 19 countries are part of the CCCU.

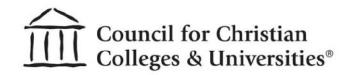

#### **MISSION STATEMENT**

The Council's mission is to advance the cause of Christ-centered higher education and to help its institutions transform lives by faithfully relating scholarship and service to biblical truth. Visit <u>www.cccu.org</u>.

#### **ABOUT THE AUTHOR**

For more than 26 years Nita Stemmler has served in various administrative posts in Christian higher education at both the institutional and sector levels, including more than 16 years of service in the Professional Programs & Research Department of the CCCU. She can be reached at nstemmler@cccu.org.

## INTRODUCTION

This is the thirty-second in an annual series of reports on tuition and fees at member institutions of the Council for Christian Colleges & Universities (CCCU). The purpose of this study is to provide the CCCU membership with comparative, longitudinal data to assist institutions in their external benchmarking.

We continue to be indebted to Dr. Stanley A. Clark who conducted this annual report on tuition and fees until his retirement.

This year's report has been compiled by Nita Stemmler using the methodology established by Dr. Clark.

## **METHODOLOGY**

This report is based on data collected by the College Board ("Trends in College Pricing 2016"); their findings appeared in the November 2016 edition of <u>The Chronicle of Higher Education</u>. All 114 US institutions listed on the CCCU website as "members" as of November 2016 have been included in this report.

This report presents the average tuition increase by using two different measures. The "mean percent change in tuition" (Table I, page 7) expresses the percentage by which, on average, each CCCU school increased its tuition this year. This figure is obtained by determining the actual increase for each school, converting it to a percentage, adding up across all institutions, and then dividing by N. The "percent increase in mean tuition" (Table II, page 7) represents how much the average cost to attend a CCCU institution increased from the previous year. This figure is calculated by subtracting the 2015-16 CCCU mean tuition from the mean tuition for 2016-17, then dividing by the mean for 2015-16.

# RESULTS

Table I (next page) presents means, medians, ranges and standard deviations for the past four years. A cursory review of Table I reveals that annual increases in tuition means, medians, and standard deviations continue to increase each year. Notably, unlike in 2015-16, tuition and fees for 2016-17 have increased at a higher rate than in the previous year. An inspection of tuition and fee data in thousand-dollar intervals reveals a modal interval for 2016-17 of \$24,000-24,999 (14 schools). The tuition and fees for half of the CCCU member institutions (N=58) falls in the range between \$24,000-30,000, and two-thirds of CCCU member institutions (N=72) charge tuition and fees in the \$19,000-29,000 range. For the first time, 100 member institutions have passed the \$20,000 mark this year, compared to 98 in 2015-16, 99 in 2014-15, 94 in 2013-14, and 90 in 2012-13. Twenty-eight schools now charge tuition in excess of \$30,000, compared to 22 in 2015-16.

# TABLE I Summary Statistics: CCCU Tuition/Fees (in dollars)

|                    | 2016-17 | 2015-16 | 2014-15 | 2013-14 | 2012-13 |

**National Comparisons.** How do the member institutions of the CCCU compare to national averages for tuition/fees? Table II presents comparative data for 2016-17. The rate of increase for CCCU institutions (3.9 percent) was higher to all other 4-year private institutions (3.6 percent) and more than percent (1.5 percent) higher than 4-year public institutions (2.4 percent). The average tuition of CCCU institutions is \$6,790 below the national average for all private four-year institutions. Twelve of our member institutions (10.5%) are either at or above the four-year private college national mean, with 89.5 percent below the mean, slightly changed from 2015-16. CCCU institutions continue to offer an excellent value in comparison to other private four-year U.S. colleges.

7.

# DISCUSSION

There continues to be consistency in rankings at the extremes of the distribution, and general stability in rankings throughout the CCCU. For example, the top 24 schools are unchanged for 2016-17, although the order is somewhat different from a year ago.

There were no double-digit tuition increase compared to 1 in 2015-16, 1 in 2014-15, 0 in 2013-14 and 2 in 2012-13. At the other end of the spectrum, 32 institutions had tuition increases of less than three percent, compared to 28 last year and 27 the year before. One institution did not increase tuition at all for 2016-17.

The average dollar increase for 2016-17 was \$983 compared to \$936 in 2015-16, \$919 in 2014-15, \$905 in 2013-14, \$943 in 2012-13, and \$1,083 in 2011-10. Fifty-four institutions increased tuition by more than \$1,000, compared to 50 in 2015-16, 39 in 2014-15, 48 in 2013-14, 57 in 2012-13, and 63 in 2011-12. Two institutions increased their tuition by more than \$2000. This is unchanged from the previous year.

The percent changes for CCCU tuition that appear in Tables 1 and 2 are calculated differently. Table 1 describes the "mean percent change in tuition". That figure was obtained by determining the actual increase for each school, converting to a percentage, adding up across all institutions, and dividing by N. It tells us by what percentage, on average, each CCCU school increased its tuition this year. Table 2, on the other hand, focuses on the "percent increase in mean tuition". It was calculated by subtracting the 2015-16 CCCU mean tuition from the mean tuition for 2016-17, and dividing by the mean for 2015-16. It tells us by what percentage the CCCU average increased this year.

The tuition figures reported in this study do NOT take institutional discounts into consideration. \* The net price is, of course, a much more significant comparison point than the sticker price. According to <u>The College Board</u> source, the out-of-pocket (net) tuition paid by students at all private 4-year institutions was \$14,190 which is lower than the net for 2015-16 (\$14,890).

The data for this report were collected by another source (The College Board). The author accepts responsibility only for recording and/or calculation errors.

\*This includes College of the Ozarks which does not charge students tuition after the discount is considered.

Washington, D.C. (November 30, 2016)
